

LASER SYSTEM LAP

DIGITAL LASER FOR HOUSE MANUFACTURERS

WOOD PRO is a laser system for projection of polylines or outlines onto working surfaces, work pieces or machine bases. Laser lines are generated based upon CAD data. The projected shapes are true to scale. With WOOD PRO you optimize workflow and quality of your production.

Independent of process and product, you may work faster, more flexible and cleaner than with conventional templates or measuring aids.

- **3 IN 1 - WOOD PRO** is a complete system of perfectly harmonised components: user interface, projection system and service.
- **MORE PRECISION** - Place your clamps, objects or prefabs with millimeter accuracy.
- **FASTER** - Save working time: no measuring, no marking, no trying - load data, start projection, take-off.
- **CLEAR-CUT** - See in advance what is going to happen - and where.
- **SAFER** - Identify problems during setup - before it's too late.
- **MORE COST EFFECTIVE** - WOOD PRO laser systems reduce setup time and crop. Many systems pay for themselves within a few months.

BUILDING THE FUTURE

RANDEK IN BRIEF

Randek develops, manufactures and markets high-performance machines and systems for prefabricated house manufacturing. The product range consist of: cut saws, wall-, floor- and roof lines, roof truss system, butterfly tables and special machines. The automation level stretches from fully automated to manual.

The company history goes back to the 1940s and began working in close cooperation with the first prefabricating house producers. Today leading house producers in 38 countries are using Randek machines and system.

CUT SAWS

High quality and well tested saws with different automation levels. Also specialized saws for custom applications.

WALL-, ROOF- AND FLOOR LINES

Complete product program for manufacturing of walls, floors and roofs. From manual to fully automatic systems.

ROOF TRUSS SYSTEMS

Adapted equipment for rational manufacturing of roof trusses. From traditional systems to fully automatic.

BUTTERFLY TABLES

Flexible and well tested butterfly tables. Simple or advanced with a wide range of options.

SPECIALIZED MACHINERY

Customized machinery developed for specific applications, Automatic stucco machine, Beam insulating machine, Roof board machine and Window frame machine.

SERVICES

A wide range of services such as Factory Layout designs, Machine maintenance, House building systems and Financing.
